

參考實績 **Reference Projects : 強力支撐(EZ Heavy Duty Post)**

Taiwan Air Port Building Terminal II CU02 Project, 機場第二航站地下室補強
(client: RSEA Engineering Corporation) 榮工公司/悅洲工程

Heavy Duty Post Jacket (150 dia mm -25mm thickness)

Heavy Duty Post System:

Main pipe: 60.3mm 3.2t, Q345B,
Hoop: extended turn buckle
& horizontal braces.

Dia=42.7mm, 2.5t, Q195
H=2.5-3.0m

Bearing capacity > 200 tons/post

For each post

Replaced original H350x350
H-beam post design.

(4 labors install 27 heavy duty
posts in 2 days)

參考實績 **Reference Projects : 欄杆夾具(EZ01, EZ03 Clamp)**

Taiwan Air Port MRT CE03B Project, FSM shoring & formwork 機場捷運 CE03B 標場撐橋
(client: Pan Asia Engineering & Construction Corporation) 泛亞/建秣鑫營造

Viaduct cat walk guide rail clamp EZ03.

EZ03, Guide Rail Clamp

The only non-destructive connector for
time being.

One blow, take care of all,
No screw up anymore!

The fastest way to connect guide rail
without any damage with original
surface.—EZ03 Clamp

The clamp for guide rail post.

Fit H-beam with flange between 19-25
mm thickness.

EZ01, LVL & H-beam clamp

Formwork clamp system, EZ01 can
save your time & money when
you assembly & dismantle your
gang formwork system without
any damage of original surface.
